SKILLS

Languages: C, C++, Java, JavaScript, TypeScript

Web Technologies: HTML5, CSS3, React.js, Next.js, Node.js, Express.js

Core Concepts & Databases: DBMS, DSA, MongoDB, PostgreSQL

Tools/Platforms: Git, GitHub, Vs Code, AWS, Docker, Jira

Soft Skills: Problem-Solving, Communication, Adaptability, Teamwork

PROJECTS

InterviewPrep AI – AI-Powered Interview Coaching Platform | [GitHub Link](#)

February 2026

- Built a full-stack AI platform for resume-job matching, interview question/answer, and skill gap analysis.
- Used Gemini API, Zod-outputs, PDF parsing, Puppeteer resume generation, and JWT authentication.
- Developed React/Vite frontend with protected routes, authentication context, and interview-state control.
- Achieved 95%+ successful API response handling across 5+ Generative AI Workflows.

Tech Stack: JavaScript, Typescript, Node.js, REST APIs, Git/GitHub.

LinguaFlow – Dynamic Language Translator | [GitHub Link](#)

April 2026

- Created a full-stack translator supporting 12+ languages with authentication and translation history.
- Integrated AI-Powered language processing with a sample, responsive translation interface.
- Designed and intuitive interface for seamless translation and language selection.
- Delivered 95% translation accuracy across 12+ supported languages.

Tech Stack: React.js, JavaScript, Node.js, Express.js, Google Gemini API, HTML, CSS, Git/GitHub.

MindForum – Q&A Platform | [GitHub Link](#)

April 2026

- Implemented a full-stack Q&A platform enabling users to post, answer, and discuss questions.
- Configured threaded answers, voting, view tracking, image uploads, and answer notifications.
- Integrated Hugging Face LLMs to generate structured Markdown answers for user questions.
- Enabled 95% reliable performance across 10+ core questions-and-answer platform workflows.

Tech Stack: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB.

TRAINING

Basics of Data Structures and Algorithms| LPU (CPE) | Certificate

June-July 2026

- Studied arrays, linked lists, stacks, queues, trees, and hash tables with their operations and use cases.
- Learned searching, sorting, algorithm design, and time/space complexity for efficient problem solving.
- Built an Advanced Student Management System using C++ and DSA concepts, applying data structures, searching, sorting, and file handling to manage student records efficiently.

CERTIFICATES

AI Tools Workshop | be10x | Certificate

August 2026

Introduction to Generative AI | Simplilearn | Certificate

July 2026

Programming Using C++ | Infosys Springboard | Certificate

August 2025

Computer Programming(C) | Iamneo | Certificate

EXTRACURRICULAR / ACHIEVEMENT

Campus Ambassador – Jyesta Corporate Entity | Offer Letter

August 2026-present

- Represented Jyesta as a Campus Ambassador, actively promoting training programs, internship opportunities, and student initiatives while engaging with fellow students.
- Engaged students through outreach campaigns and shared feedback to strengthen campus engagement.

Problem Solving | Profile

- Solved 300+ problems across LeetCode and GeeksforGeeks, demonstrating problem solving skills.

EDUCATION

Lovely Professional University

Phagwara, Punjab

B.Tech in Computer Science and Engineering: CGPA: 8.58

2024 - present

St. Paul’s College

Ranchi, Jharkhand

Intermediate, Percentage: 80.8

2022 - 2024

Oxbridge School Mandar

Ranchi, Jharkhand

Matriculation, Percentage: 89.2

2021 - 2022
