SKILLS

Languages: C, C++, Java, JavaScript, TypeScript
Web Technologies: HTML5, CSS3, React.js, Next.js, Node.js, Express.js
Core Concepts & Database: DBMS, OOPs, DSA, MongoDB
Tools/Platforms: Git, GitHub, VS Code, Jira
Soft Skills: Problem-Solving, Communication, Adaptability, Teamwork

INTERNSHIP EXPERIENCE

Full Stack Developer Intern | Glazzarto Technologies Pvt. Ltd. October 2026 – Present

- Engineering fast, responsive user interfaces with React.js and Next.js for a seamless user experience.
- Building scalable REST APIs and robust server-side logic with Node.js and Express.js for the product.
- Designing optimized MongoDB schemas and queries for reliable, high-speed data handling in the app.
- Shipping clean, production-ready features through Git, GitHub and Jira-driven workflows on schedule.

PROJECTS

MindForum – Q&A; Platform | GitHub Link April 2026

- Implemented a full-stack Q&A; platform enabling users to post, answer, and discuss questions easily.
- Configured threaded answers, voting, view tracking, image uploads, and instant answer notifications.
- Integrated Hugging Face LLMs to generate structured Markdown answers for user questions instantly.
- Enabled 95%+ reliable performance across 10+ core question-and-answer platform workflows overall.

Tech Stack: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB

LinguaFlow – Dynamic Language Translator | GitHub Link April 2026

- Created a full-stack translator supporting 12+ languages with authentication and translation history.
- Integrated AI-powered language processing behind a fast and responsive translation interface for all.
- Designed an intuitive interface for seamless translation and effortless language selection for all users.
- Delivered 95%+ translation accuracy across 12+ supported languages with consistent, reliable output.

Tech Stack: React.js, JavaScript, Node.js, Express.js, HTML5, CSS3

InterviewAI – AI-powered Interview Coaching Platform | GitHub Link February 2026

- Built a full-stack AI platform for resume-job matching, interview Q&A; practice, and skill gap analysis.
- Used Gemini API, Zod-outputs, PDF parsing, Puppeteer resume generation, and JWT authentication.
- Developed React/Vite frontend with protected routes, authentication context, and interview-state flow.
- Achieved 90%+ successful API responses across 5+ Generative AI workflows for smoother sessions.

Tech Stack: JavaScript, TypeScript, Node.js

TRAINING

Basics of Data Structures and Algorithms | LPU (CPE) | Certificate June – July 2026

- Studied arrays, linked lists, stacks, queues, trees, and hash tables with their operations and use cases.
- Learned searching, sorting, algorithm design, and time/space complexity for efficient problem solving.
- Built an Advanced Student Management System using C++ and DSA concepts, applying data structures, searching, sorting, and file handling to manage student records efficiently.

CERTIFICATES

AI Tools Workshop | be10x | Certificate — August 2026
Introduction to Generative AI | Simplilearn | Certificate — July 2026
Programming Using C++ | Infosys Springboard | Certificate — August 2025

ACHIEVEMENTS

- Represented Jyesta Corporate Entity as a Campus Ambassador, actively promoting training programs, internship opportunities, and student initiatives. (Offer Letter) — August 2026
- Solved 400+ problems across LeetCode and GeeksforGeeks. (Profile) — September 2025 – present

EDUCATION

Lovely Professional University | B.Tech in Computer Science and Engineering | CGPA: 8.58 August 2024 – Present
Phagwara, Punjab

St. Paul's College | Intermediate, Percentage: 80.80 May 2022 – April 2024
Ranchi, Jharkhand

Oxbridge School Mandar | Matriculation, Percentage: 89.20 May 2021 – April 2022
Ranchi, Jharkhand
